Name	Angiotensin II Acetate
Cat #	PP-1040
Size	1 g, 10 g, 100 g and bulk custom packages
CAS#	68521-88-0
Mol. Mass	1046.18
Formula	C ₅₀ H ₇₁ N ₁₃ O ₁₂
Sequence	Asn-Arg-Val-Tyr-Ile-His-Pro-Phe
Purity	
Appearance	
General Information	Angiotensin II is an important physiological effector of blood pressure and volume regulation through vasoconstriction, sodium uptake, the release of aldosterone, and the stimulation of thirst. Angiotensin II is mediated by its interaction with, Angiotensin II type 1 membrane receptors.
