Product Data Sheet

Cat#: SP-100029-5
Description: [Trp7,β-Ala8]-Neurokinin A (4-10) [Asp-Ser-Phe-Trp-β-Ala-Leu-Met- NH₂; MW 868.03]
Size: 5 mg
Purity: >95%
Form: Powder
Store: Desiccated at -20oC.

Neurokinins are part of the tachykinin family of peptides and neuromedins. Neurokinin A and B were originally isolated from porcine spinal cord. Neurokinins (substance P, neurokinin A, neurokinin B) and the neurokinin receptors - NK1 and NK3 - are largely expressed in the nucleus of the solitary tract (NST), where they are involved in the central regulation of visceral function. Neurokinin A is involved in hematopoietic regulation while Neurokinin B is known for its role as the mediator of pain transmission
